Subject: FOIA-HQ-2019-00482-F Amendment
Date: Wednesday, March 06, 2019 4:47:00 PM

Mr. Pfeiffer,

Thank you for the phone call today. To recap- we discussed the OSTI.gov/opennet site and what it contains. We talked about the availability of 'Classification Bulletins', and the like, that are published by the DOE for public use. Because of the availability of these bulletins you agreed to amend your FOIA request to omit the portion relating to declassification memos/reports produced since 2002.

You indicated what you are after is the successor document to the "RDD-8" if it exists; alternatively, the document(s) that fill a similar role or listing similar content. Additionally, you would like any reports similar to RDD-8 that would effectively be an index or collection of decisions that would be found in a document like RDD-8. I would like a short time to discuss this amendment with our project manager in order to refine the search language for what you are looking for. I will respond via email after that discussion and seek your agreement to the amendment as you requested in a previous email.

If you have any questions about this email please contact me.
I look forward to servicing your request.

Sincerely,

Jeffrey Crile, Esq.
